Outside of working for your degree, there’s loads to get involved with! We have a variety of sports teams from rowing to ultimate frisbee or even croquet in the summer. You can join the College Chapel Choir, contribute to the undergraduate magazine, act with the St John’s drama society, socialise at an LGBTQ drinks, or take part in discussions at the feminist society. If something isn’t already on offer, it’s really easy to set up your own society which the JCR can support and fund. We also put on lots of events to enjoy during term, such as in-college parties called ‘Bops’, guest dinners in Hall where you can invite friends from home to formal dinner and lots of themed weeks such as Welfare Week and Arts Week.

St John’s is, in my experience, a very caring, inclusive and encouraging community. Students here work hard (and always have something interesting to say about their subject!). However, there’s always something going on socially to balance the hard work. I hope you choose to apply here and good luck!

Amelia, 3rd year English

*All intake numbers are averages, as intakes for each subject sometimes vary slightly from year to year

We also offer some joint degrees for arts subjects and joint degrees for science subjects. There are up to 8 places available for joint degrees involving arts subjects and two places available for joint degrees involving science subjects.
**Day In The Life Of...**

**Kai: 4th Year Mathematics and Computer Science**

08.30-09.30: I usually wake up gradually and grab some cereal, or I'll go to the Hall for breakfast if I have a dreaded 9am.

09.30-13.00: My lectures tend to be in the late morning. I'll either wander down to the Maths Institute, just a short walk from College, or I'll scour through my problem sheets in my room.

13.00-16.00: We often meet as a football team in the afternoons, either for a match against another college kicking off at 2pm or for training at the Fortress (our state-of-the-art sports ground). We're incredibly lucky to have some of the best sports facilities in Oxford at our disposal.

16.00-17.30: I get through some more work and make sure that I'm fully caught up with lecture notes. I try to avoid working late into the night as much as possible.

17.30-20.00: I rustle up dinner with my friends. Paella is my speciality dish.

20.00-00.00: I spend the evenings relaxing in College, whether we're preparing to go out clubbing or just chilling. Usually I can be found in the College Bar, the Games Room or the (hugely underrated) TV Room.

**Lizzie: 2nd Year Classics**

05.45-8.30: Since coming to St John's I've joined the Boat Club and cox (steer) the women's second boat. This means being up bright and early a couple of times a week to head down for a session on the river! It's great fun to be part of a team and we often come back for cooked breakfast together in Hall.

09.00-13.00: Mornings are usually taken up with a mix of language classes, reading classes and lectures.

13.00-14.00: I'll grab some lunch – I like to meet up with friends in our favourite cafés around Oxford a couple of times a week.

14.30-18.00: In the Library I work on my translations and other set work. If I don't have a tutorial, I'll take some time to get some fresh air in University Parks. It's a great place to clear your head.

18.00-22.00: When I've finished work I go for dinner. I prefer to cook for myself because I enjoy cooking. Often in the evening my friends and I will go out to plays, talks or concerts. One of the great things about coming to Oxford and meeting new people is that you end up going to all sorts of events. This year I've been to talks on 'Ideology and Genocide' and 'The Philosophy of Art'. I've seen students perform 'Henry V' and 'Little Shop of Horrors' and I've also been to jazz concerts and even harpsichord recitals.
Louise: 4th Year French

08:00-08:50: I head to Hall to enjoy some porridge and catch up with friends to start the day.

09:00-11:00: I head to the Taylorian across the street for a couple of lectures then grab the books on my reading list from the library.

11:00-13:00: I pop to the gym to get some exercise in before taking on a bit of work.

13:00-14:00: I cook some lunch in my kitchen and eat with a few pals in my room.

14:00-18:30: Head over to a café in Turl Street for coffee and a study session with a friend.

19:00-20:00: Cook fajitas with people on my staircase.

20:00-23:00: Watch a bit of ‘Game of Thrones’, grab a drink in the bar or chill out with friends.

Greg: 2nd Year Medicine

08.40-9.00: I wake up and go to lectures. Fortunately for me, the department is only a five minute walk away.

09:00-13:00: Lectures/Labs - we usually have one hour off during this time and we either sit in the Biochemistry Café and chat or pop back to College since it’s so close.

13:00-14:00: Lunch - I usually cook something or reheat leftovers and eat with the people I live with, but lots of other people have lunch in Hall which is really good value.

14:00-20:00: We often have a couple more lectures (only up until 5pm at the latest) and/or a tutorial (we have 3-4 a week). Otherwise I’ll do work for my tutorials or socialise. Again for dinner, I usually cook.

20:00 onwards: If it’s a difficult week for work, I may have to work after dinner too, but usually I spend this time chilling with my friends, going to the gym or going out in town.
Accommodation

At St John’s we are very lucky to have cheap but well-equipped accommodation guaranteed for the duration of your degree. Most rooms have a sink, generous shelf space, access to communal bathrooms (shared between up to four people) and basic cooking facilities. First Years are placed in Tommy White Quad and the Beehive; Second Years are scattered all over the place, with half the year balloting for shared houses on Museum Road. Ensuite bedrooms in the beautiful Kendrew Quad are available to finalists!

The rooms operate on a sliding fee scale (see room rate table), so you pay more for bigger rooms; but, in general, accommodation is very affordable and compares favourably to other Oxford colleges. In 2017/18, rent was £925 to £1088 per term. You are only paying for the accommodation during term time, so it is a really affordable option.

Christine, 2nd Year History and Politics

College-owned houses
Finance

Both College and the University offer various means of financial support to their students, striving to do all they can to ensure that degree level is affordable for all.

The University itself provides several avenues of financial support: Student Fees and Funding (student.funding@admin.ox.ac.uk) are your first point of contact regarding questions about financial matters. Further information about University wide funding can be found at:

www.ox.ac.uk/student/fees-funding/assistance/hardship

Although the University offers different means of support, St John’s also prides itself on the number and availability of the grants and scholarships it provides for its students. Students at St. John’s can claim up to around £335 a year on the Academic Grant which is designed to support students. St John’s allows students 21 days of Vacation Residence annually, allowing you to return to College early to revise/work before term begins at no extra cost.

Through its grants, College tries to help you get the most from your time at Oxford, offering a range of opportunities to enrich your study or to support you in your extra-curricular pursuits. Special Grants are available to help fund study-related travel and there are a number of other prizes and grants available for specific endeavours. Blues Grants of up to £250 are available annually for helping to cover costs incurred through competing in University level sport. For more details on financial support go to: https://www.sjc.ox.ac.uk/current-students/grants-scholarships-and-prizes/

Living Costs:

• Rates for accommodation are among the most reasonable at the University.

• Meals in Hall are heavily subsidised – on average: breakfast £1.50; lunch £2.50; dinner just over £3; formal £4 being one of the cheapest across the colleges. (Cost correct at time of publication).

• It may not seem it but one thing which makes a huge difference is free printing – especially if you have any long pieces of work to submit!

• We’re very lucky to have access to two free gyms on site, so keeping on top of your fitness won’t cost you a penny.

Mary, 3rd Year Classics
COLLEGE OF ST. JOHN BAPTIST IN OXFORD

FOUND BY SIR THOMAS WHITE

Charlie Clegg, Postgraduate Theology
Any hard-working student knows that you need to balance academia with some time to relax and socialise. As Entz ('Entz' is Oxford speak for Entertainments) Officer, my job is to organise some fun for the College. We'll introduce you to Oxford nightlife and all its clubs and bars so you're familiar with the city when you start going out with your new friends. Inside College, I'll organise the Bops which are big fortnightly student-run parties with DJs, drinks, and pizzas. Future activities we are planning include ice-skating trips, paintball and water fights. We also hold open mic nights in the bar and encourage all of you to consider playing or coming to watch your friends. The barman is very friendly, helping us hold our cocktail tasting nights and is always happy to have more people around. If these events sound appealing, we're always open to new suggestions!

Dalva, 3rd Year Archaeology and Anthropology

Eating in Hall and self-catering are both popular options at St John’s. Most students have kitchen access and our Hall serves cheap but fantastic food. To give you an idea, a three-course informal or candle-lit formal dinner with waiter service is around £3.76 or £4.15 respectively. Kendrew Café is also a popular place for lunch and the bar has an endless supply of creative cocktails. Twice a term, there is a Special Guest Dinner where the Hall is decorated and everyone dresses up for a fancy meal!

Claire, 2nd Year French and Portuguese
Sport

Sport at St John’s continues to thrive and excel. With Blues (University level) representatives in sports such as rugby, football, fencing, ice hockey, athletics, rowing, kickboxing, dancesport, skiing, handball and tennis amongst others, St John’s provides a place in which University level sportspeople can flourish and develop. With two free-to-use gyms inside the College grounds, as well as squash courts, a rowing ergometer room, a brand new pool table and an events room that can be used for everything from circuits to zumba, the College has fantastic facilities that are unparalleled in Oxford. In addition to the excellent University level competitors, St John’s also boasts an excellent calibre of College teams. In just the last four years, the men’s and women’s rugby teams have reached five Cuppers Finals between them (winning three) while the men’s football team has boasted three league titles in the last three years, reaching both of these milestones unbeaten. Recent successes have also included the mixed tennis team winning Cuppers in 2016, the women’s rowing team finishing 97th out of 320 teams in the world’s largest women’s Regatta this year, while the 2016 volleyball Cuppers’ (colleges competing against each other) final pitched St. John’s 1st team against St John’s 2nd team. The College is proud to host a plethora of highly popular sports teams, including cricket, women’s football, squash, badminton, ultimate frisbee, netball, lacrosse and many more. The sporting scene at St John’s is forever growing, thanks to outstanding facilities and welcoming atmosphere.

Sam, 3rd Year History
**Music**

As I was torn between applying for Music or Medicine, it was very important that I could still pursue music whilst studying at St John’s. I am very happy to say I have been able to do just that. This College has numerous practice rooms on site, one equipped with a Steinway piano, two with upright pianos and one band room with a drum kit, keyboard and amps. These rooms are free to use and are very rarely booked out which is excellent for practising. The band room is a fantastic place to have a jam and from a number of jamming sessions I set up a jazz/funk band with some friends from St John’s.

The band room is a great place to practice together and, as a result, we have really developed as a band, having now played around 50 gigs at city venues, festivals and balls, including the St John’s Commemoration Ball. There are now a number of bands comprised of students from this College and there’s nothing stopping you from starting one here either! These incredible experiences have made me keen to pursue music further and I am now considering applying for a Masters after finishing my medical degree.

St John’s has made this dream a possibility as every year three music bursaries and one scholarship of around £360 and £400 respectively are offered to students who play an instrument/sing. Over the last two years I have been incredibly lucky to benefit from this. The additional funding has enabled me to have lessons with some prestigious musicians, including Martin Robertson (teacher of woodwind at the Royal College of Music). Outside of the College, there are also a number of university-wide bands and orchestras (both auditioning and non-auditioning) that you can get involved with. For example, I also play tenor saxophone in a 21-member auditioning jazz band.

As well as numerous gigs around Oxford, the highlight of the year was playing on tour in Bangladesh, where for ten days we performed at a number of events in Dhaka. We played to the friends and family of the President of Bangladesh. What made this trip even more incredible was that, being a University band, most of our costs were covered by funding!

If you enjoy listening to music, maybe more than playing, there is never a shortage of gigs and concerts to attend in Oxford. For example, every Tuesday, Oxford Jazz Society runs a jazz night at a cocktail bar called ‘The Mad Hatter’ where a professional band performs and then the floor opens up for a jam.

A number of famous bands such as Radiohead, Foals and Glass Animals were founded in Oxford, in fact Yannis Philippakis went to St John’s before leaving to pursue music! It's therefore not uncommon to spot members of these bands roaming the streets of Oxford.

As you can see there are numerous ways to get involved with music at Oxford and St John’s strongly encourages this. As a student, you dictate your own university experience and, before you know it, find your own rhythm, which allows your study to be combined with other things that matter to you.

Jess, 4th Year Medicine

---

Keep It Trill playing at Mansfield College Ball
Myth Five: Oxford students are all massive nerds that live in the library and never see the sunlight and don't know the meaning of “fun”

Yes, we certainly are very interested in and enthused by our subjects, which keeps us motivated to regularly hit up the library and work on our essays and tutorial sheets etc. We do generally have a higher workload across all subjects compared to other universities. However, this difference tends to even out over the years. Come your finals, you’ll be working hard no matter which university you end up at.

Nevertheless, we certainly do a lot of other things with our time. Oxford has a very diverse and large range of societies and sports teams, as well as hundreds of bars, pubs, clubs and cute cafés. There is also a big cultural scene, loads of talks, events, shows, theatrical productions, college and intercollegiate socials, beautiful parks and gardens, a river to punt on, amazing museums and a

Myth Six: The interviews are a very elaborate and mysterious form of intellectual torture, akin to MI5’s new interrogation techniques, designed to make the student feel incredibly uncomfortable and weep in despair at impossible questions

The purpose of the interview is for the tutors to get an idea of the way you think, your suitability and enthusiasm for the course and, ultimately, if you will do well at Oxford and if they would like to teach you. Interviews are not there for the tutors’ annual vindictive entertainment and are not designed to catch you out.

Myth Seven: It’s too competitive to bother applying

Oxford courses can be very competitive, but this should not deter you from applying. The University has approximately 3,500 undergraduate places to offer each year and these are only going to be filled if YOU apply. If you are a motivated and hardworking student, predicted to achieve the right A Level grades for your chosen course, who is enthused by your subject, there is no reason why you shouldn’t consider applying!!
Another interesting fact that you should probably know before applying: In 1645, Archbishop Laud was beheaded for supporting the King against Parliament and was buried beneath the altar in the Chapel at St John’s. He still haunts the Laudian library in Canterbury Quad with wails that can be heard throughout the College. His ghost has apparently also been seen bowling its head towards the feet of anyone unlucky enough to meet it.

Art-wise, we have a couple of hidden gems. There’s a Marc Chagall painting floating about in the JCR art collection which goes out on loan to students. We also have a birdbath worth £157k by Henri Gaudier-Brzeska, a French sculptor who fell in love with the English Vorticist movement. This is very well hidden and most people at St John’s don’t even know it’s there. It is so heavy that when it was put centre stage on the grass, it started to sink. So, that is why it is in its current spot and why no one had been able to run off with it.

All in all, the strange facts and facets of St John’s are probably best related by the students themselves. Everyone who comes here has their own take on the College buildings and their inhabitants (both former and current) so come along and have a chat!

Olivia, 2nd Year History of Art
Grants

St John’s provides the widest range of grants of Oxford colleges and really rewards you for doing the things you love and embracing new opportunities. The main grants specific to St. John’s are:

**Academic grant:** around £335 each year. Books, laptops etc. can all be claimed on academic grant if approved by a tutor.

**Sports grant:** around £250 each year. If you represent a University sports team you can use this grant for sports gear etc.

**Music grant:** four music bursaries each year in the region of £360 and one scholarship of £400 are available to any students who play an instrument or sing.

**Special/travel grant:** the amount awarded varies case by case, but can be up to £1000 a year for travel directly or indirectly associated with your degree. St John’s students have gone all around the world with this grant!

**Travel scholarships to India and North America:** these scholarships offer up to £3000 and £2500 respectively to one student each year. It is a great opportunity to network with St John’s alumni.

**Vacation grant:** as many students are more productive working in College rather than at home, everyone is able to apply for up to 21 days a year free accommodation during the vacation for study purposes.

**James undergraduate scholarships:** supports international undergraduates in financial need from developing countries. The scholarship covers University and College fees and provides a living cost grant, as well as one return economy class flight home per year.

**Extra University-wide grants include:**

**Reach scholarship:** supports undergraduates in financial need from developing countries. The scholarship covers College fees, a living cost grant and one return economy class flight home each year.

**Oxford bursaries:** up to £4500 in the first year and up to £3300 in subsequent years of a student’s course. This is available for Home students from lower income households.

**Moritz-Heyman scholarship:** provides funding additional to Oxford bursaries, opportunities to take part in volunteering activities and the chance to access at least one internship during the summer vacation.

Personally, I’ve claimed an academic grant every year. With it I have purchased a laptop and books etc., which has made life so much easier. Other students have got iPads or other tablets, screens and even mobile phones on the grant - no other college gives this level of grant. It has hugely benefitted everyone I know who’s used it! St John’s was also really generous and gave me funding to travel to Madeira for my dissertation research which was a once in a lifetime opportunity. I didn’t realise just how much funding St John’s could provide but, once I took the opportunity, it greatly improved my University life and experiences.

Rohan, 3rd Year Geography
Contributors' Fun Facts

Kelly: I can juggle, use a diablo and ride a unicycle

Georgia: I was shortlisted for a BAFTA award

Dan: I sang with Gareth Malone once

Clare: My favourite foods are ice cream and nachos (not as one dish) and I'm giving up both to make an extra commitment to my role as E&E officer by becoming vegan

Charlie: I'm trying to learn British Sign Language at the moment

Izzy: I can't stick my tongue out straight

Jonathan: Instead of paying to do my washing in college, once a fortnight I walk home and do it myself for free

Alistair: I was once saved from losing a rowing race by a swan

Selin: I once ran through a field of wheat and nearly got caught!

Sofia: I have four chihuahuas

Eoin: Justin Timberlake once winked at me

Louise: I recently learnt to bake sourdough bread from scratch so yeah hit me up if you want fresh bread

Olivia: I once got barred from a Wetherspoons for going there too often

Dalva: I've lost (and cancelled) my debit card seven times since I started my degree

Lucy: My middle name is the same as a Welsh hill - Cwmyoy

James: I enjoy cycling so much that I have shaved my legs several times

Caitlin: I have two dogs called Charlie and Lola

Jess: I have used the President of Bangladesh's toilet

Christine: I've only ever been picked to play male characters in drama performances

Mary: I spent my summer digging up fossilised parts of a giant proto-elephant

Louise: I was in the world record for the most people dressed as bees in one place

Lizzie: I am always baking (cake aids good studying)

Charlie: became an internet hit after he featured in the 2016 University Challenge team that made it to the final

Izzy: I can't stick my tongue out straight

Jonathan: Instead of paying to do my washing in college, once a fortnight I walk home and do it myself for free

Alistair: I was once saved from losing a rowing race by a swan

Selin: I once ran through a field of wheat and nearly got caught!

Sofia: I have four chihuahuas

Eoin: Justin Timberlake once winked at me

Louise: I recently learnt to bake sourdough bread from scratch so yeah hit me up if you want fresh bread

Olivia: I once got barred from a Wetherspoons for going there too often
